---

We are proud to present the results of our project and share our pathways for the decarbonisation of Europe in the **DEEDS Final Conference held online on 15<sup>th</sup>-16<sup>th</sup> September 2020.**

The results of our project show pathways to ensure that decarbonisation will be successful and fair while ensuring the competitiveness of the European economy. **Our final conference focuses on how the results go beyond this project and can be implemented to achieve the goals of the European Green Deal** while the continent is recovering from the economic effects of the Covid-19 pandemic.

Over two days, we will host four sessions, bringing together the work from the last three years. The sessions will present how the results and recommendations can be taken up by the EU, Member states and Industry, as well as how the databases and tools can be used by other projects in the future.
